Prior to launching Stansberry & Associates, Porter was the first American editor of the *Fleet Street Letter*, the world's oldest English-language financial newsletter.

Today, Porter is well-known for doing some of the most important – and often controversial – work in the financial advisory business. Since he launched *Stansberry's Investment Advisory*, his string of accurate forecasts has made his advisory one of the most widely read in the world, and has helped his readers both avoid catastrophe and make incredible gains.

For example, his dead-on prediction of the mortgage meltdown got the attention of *Barron's*, which said Porter's work was "remarkably prescient... Nothing, as far as we can see, has happened to contradict his dire prophecy..."

At S&A, Porter oversees over a dozen of the best editors and analysts in the business, who do an exhaustive amount of real-world, independent research. Together, his group has visited hundreds of publicly traded companies to bring S&A subscribers the safest, most profitable investment ideas in the world, no matter what's happening in the markets.
