WHAT IS STANSBERRY RESEARCH?

By Porter Stansberry

Stansberry Research is a subscription-based publisher of financial information and software, serving millions of investors around the world. Our business is guided by two simple principles:

1. We strive to give our customers the information we'd want if our roles were reversed.
2. We only publish analysts whose advice and strategies we'd want our own families to read and to follow.

We believe in offering a range of opinions. Experienced analysts, with their own unique investment strategies and philosophies, lead our franchise brands. As a result, we do not promote a single, unified view of the markets, but instead we publish a mosaic of opinions, recommendations, and strategies. This multi-franchise approach gives our work far greater breadth, creating more diverse opportunities for our subscribers. Our franchises are linked, however, by a continuous commitment to risk management and a contrarian approach to identifying investment opportunities. Across all of our franchises, we focus on investments that are unloved, ignored, or unknown. It is in these situations where having an informed perspective gives our subscribers the best risk-to-reward opportunities.

We believe in a long-term approach. Our business strategy is based on building long-term relationships with our customers. We generally do not earn a profit from marketing trial subscriptions. Instead, we seek long-term relationships with our clients by providing consistently reliable, actionable, and profitable advice, which results in renewal income for our business. As a result, many of our internal marketing efforts are focused on selling lifetime subscriptions, which give clients access to more (or even all) of our products at a much lower total cost. The same long-term thinking guides the relationships we have with our business partners and our employees.

We believe in transparency and accountability. Sincere goodwill is best demonstrated by routine and reliable measures of performance. We believe that all investment advisors, whether fiduciaries or publishers, ought to provide an accounting of the outcomes of their advice. All of our investment recommendations are publicly evaluated each year. All of our investment newsletters include track records in each monthly issue.

We believe in unmatched customer service and no-risk subscriptions. Our overall goal in business is to simply treat our customers as we would like to be treated. When you call our office, we will pick up the phone. And, at any time, for any reason, if we're not able to meet your expectations, we are always willing to "part as friends" by refunding the remainder of your subscription fee, promptly. There is more than enough risk in the financial world: you will never have to risk a penny buying our products.

MEET THE EDITORS AND ANALYSTS

FOUNDER PORTER STANSBERRY

PORTER
STANSBERRY

Porter Stansberry founded Stansberry & Associates Investment Research in 1999 working on a borrowed computer at his kitchen table. Since then, he has built the firm's flagship newsletter, *Stansberry's Investment Advisory*, into one of our industry's most widely read publications. He is also the editor of *Stansberry Alpha*, *Stansberry International*, and host of *Stansberry Radio*, a weekly broadcast that has quickly become one of the most popular online financial radio shows.

Prior to launching Stansberry Research, Porter was the first American editor of the *Fleet Street Letter*, the world's oldest English-language financial newsletter.

Today, Porter is well-known for doing some of the most important – and often controversial – work in the financial advisory business. Since he launched *Stansberry's Investment Advisory*, his string of accurate forecasts has helped his readers both avoid catastrophe and make incredible gains. It's what has made his newsletter indispensable to many readers around the world.

For example, his dead-on prediction of the credit crisis got the attention of *Barron's*, which said Porter's work was ***“remarkably prescient... Nothing, as far as we can see, has happened to contradict his dire prophecy...”***

At Stansberry Research, Porter oversees over a dozen of the best editors and analysts in the business, who do an exhaustive amount of real-world, independent research. Together, his group has visited hundreds of publicly traded companies to bring Stansberry Research subscribers the safest, most profitable investment ideas in the world, no matter what's happening in the markets.

ABOUT:

- Editor of *Stansberry Global Contrarian*, a monthly advisory focused on high upside-potential investment opportunities in out-of-favor markets globally.
- 20 years of emerging and frontier market investment and analysis experience.

EDITOR KIM ISKYAN

Kim Iskyan is the editor of *Stansberry Global Contrarian*, an investment advisory that focuses on out-of-favor global markets that offer the potential for huge returns.

Before joining Stansberry Research in 2013, Kim spent more than 20 years as a finance professional in emerging and frontier markets. He spent nine years in Moscow, Russia, as a sell-side research analyst and deputy head of research for Renaissance Capital, a global emerging markets investment bank, and two Russian investment banks.

Separately, he lived in the Central Asian country of Kyrgyzstan as part of an effort to build a stock market, soon after the end of the Soviet Union. He also worked for two years in Armenia on developing a domestic capital market.

During his time in Moscow, Kim also managed a hedge fund focused on opportunities in the markets of the former Soviet Union. On another front, he worked for a global asset management firm in Dublin, Ireland. Most recently, he consulted for a securities research outsourcing firm in Colombo, Sri Lanka, for two years. Finally, Kim also worked for a global political risk consulting firm in Washington, DC, where he lives now.

Kim has been quoted in a range of publications over the years, including *The Economist*, *The New York Times*, the *Wall Street Journal*, *Barron's*, *The Moscow Times*, *Bloomberg*, and others. He has also written commentary for the *Wall Street Journal*, *Slate*, *Salon*, *TheStreet.com*, *Global Finance* magazine, *breakingviews.com*, and a number of other publications.

Kim grew up in Spain, speaks three languages, has lived in eight countries, and has traveled throughout Europe, the former Soviet Union, and Asia. He earned a degree in international relations at Brown University, and a master's degree in history from the University of Pittsburgh.

EDITOR
DR. STEVE SJUGGERUD

ABOUT:

Dr. Steve Sjuggerud is the editor of *True Wealth*, an investment advisory specializing in safe alternative investments overlooked by Wall Street. It's based on the simple idea that you don't have to take big risks to make big returns.

Since Dr. Sjuggerud joined Stansberry Research in 2001, he has found super-safe, profitable investment ideas for his subscribers that the average investor simply never hears about... until the big gains have already been made.

Over the years, for example, *True Wealth* readers had the opportunity to make outstanding gains in Icelandic bonds (**32%**)... timber (**64% and 27%**)... housing (**103% and 95%**)... and “virtual banks” (**52% and 29%**), to name a few. Dr. Sjuggerud also recommended buying gold back in 2002 – when it was trading for around \$320 an ounce – a call that **led subscribers who took advantage to gains of 273%, 206%, and 182%** in collectible gold coins, and 118% on shares of Seabridge Gold.

Dr. Sjuggerud is also the creator and editor of *True Wealth Systems*, which uses powerful computer software similar to ones found at hedge funds and Wall Street banks to pinpoint the sectors most likely to return 100% or more. Using this system, he can rigorously test and maximize profits on virtually any investment idea he can think of. One major newsletter industry insider called *True Wealth Systems* “**the most in-depth research service ever developed.**”

Quoted by the *Wall Street Journal*, *Barron's*, and the *Washington Post*, Dr. Sjuggerud is also the co-author of *Safe Strategies for Financial Freedom*, a best-selling book on investment strategies. Over his career, he has addressed hundreds of financial conferences in the U.S. and around the world, including at the New York Stock Exchange. Dr. Sjuggerud holds a doctorate in finance and has worked as a stockbroker, vice president of a \$50 million global mutual fund, and a hedge-fund manager.

- Editor of *True Wealth* and *True Wealth Systems*.
- Editor of *DailyWealth* and *DailyWealth Premium*, daily advisories that focus on safe, under-the-radar investments.
- Co-author of *Safe Strategies for Financial Freedom*, a best-selling book on investment strategies.

ABOUT:

- Editor of *Retirement Millionaire*, a monthly advisory that shows readers how to live a millionaire lifestyle on less money than you'd imagine possible.
- Editor of *Retirement Trader*, a trading advisory that shows readers a safe way to double or triple the gains in their retirement account, with much less risk.
- Editor of *Income Intelligence*, an income advisory that shows readers how to collect income from six different asset classes.

EDITOR

DR. DAVID EIFRIG, JR.

Dr. David Eifrig, Jr. is the editor of *Retirement Millionaire*, a monthly advisory that shows readers how to live a millionaire lifestyle on less money than you'd imagine possible. Since the launch of *Retirement Millionaire*, Dr. Eifrig has shown his readers scores of ways to make and save money. In 2012, **he closed a position for more than a 120% gain**. He also told readers about a website that could find their "missing money." One subscriber said, "*I was able to recover \$200 for my grandmother and \$400 for my mother.*"

Dr. Eifrig is also the editor of *Retirement Trader*, a trading advisory which shows readers a **safe way to double or triple the gains in their retirement account with much less risk**. *Retirement Trader* has an incredible streak of more than 130 consecutive positions closed for a gain. On his success, one subscriber told us, "I love your work! I have been selling puts and love it! It has certainly changed my investing style and my life. So far, I am up 40% this year."

Income Intelligence is Dr. Eifrig's newest advisory. In it, he analyzes and recommends securities from six different income-producing asset classes. It's important to collect income from multiple sources because each of these asset classes reacts differently to various market factors. And he has developed a simple set of strategies he calls "trading for income," which precisely time when you should be in the various income-producing assets.

Before joining Stansberry Research in 2008, Dr. Eifrig worked in arbitrage and trading groups with major Wall Street investment banks, including Goldman Sachs, Chase Manhattan, and Yamaichi in Japan.

In 1995 Dr. Eifrig retired from Wall Street, went to UNC-Chapel Hill medical school, and became an ophthalmologist. Now, in his latest "retirement," he has joined Stansberry Research full-time to share his experiences and ideas with readers.

EDITOR JEFF CLARK

ABOUT:

Jeff Clark is the editor of the *Stansberry Short Report*, an investment advisory focused on options trading.

Jeff joined Stansberry Research in 2005 after retiring from his private money management business at age 42. *Stansberry Short Report* uses the same strategy Jeff has been using since 1987, when he was managing money for around 100 of California's wealthiest individuals.

Since the launch of *Stansberry Short Report*, subscribers have had the opportunity to make triple-digit gains over 50 times and double-digit gains over 160 times. As a result of this incredible track record, we've received hundreds of positive e-mails from *Stansberry Short Report* subscribers.

In addition to short-term options trading, Jeff also features one of the best income-generating strategies available. Using a simple, conservative trading strategy he perfected while in the money management business, Jeff shows subscribers how to make large amounts of income – overnight and throughout the year.

Jeff is also the editor of the *Stansberry Pro Trader*, one of our most sophisticated options-trading research services. The strategies used in this advisory letter mirror the way Jeff trades his own money. And it's also how he was able to retire when he was 42 years old. Used by the best institutional traders in the world, Jeff's *Stansberry Pro Trader* strategy allows you to potentially make money no matter what a stock does – whether it goes up, down, or just stays the same.

Jeff is also the lead editor of Stansberry Research's free daily e-letter *Growth Stock Wire*, which provides a pre-market briefing on the best trading opportunities in the global markets.

Before joining Stansberry Research, Jeff was president and chief executive officer of an independent San Francisco-based brokerage house and private money management firm. Jeff also served as a consultant to one of the country's largest options market-making firms, developed the curricula for an international Masters of Business Administration (MBA) program, and is the founder of an investor education firm.

- Editor of the *Stansberry Short Report*, a trading advisory that focuses on buying and selling options.
- Editor of the *Stansberry Pro Trader*, Stansberry Research's most sophisticated options-trading research service.
- Editor of *Growth Stock Wire*, a free daily e-letter which provides a pre-market briefing on the best opportunities in the global markets.

ABOUT:

- Editor of *Extreme Value*, a monthly investment advisory which focuses on the safest stocks in the market.

EDITOR DAN FERRIS

Dan Ferris is the editor of *Extreme Value*, a monthly investment advisory focused on the safest stocks in the market: great businesses trading at steep discounts.

Dan joined Stansberry Research in 2000. He became the editor of *Extreme Value* in 2002. His strategy of finding safe, cheap, and profitable stocks has earned him a loyal following – as well as one of the most impressive track records in the industry.

Longtime *Extreme Value* readers have enjoyed a long list of double- and triple-digit winners thanks to Dan's diligent research, including Gateway (**124%**), Blair Corp (**111%**), Ichan Enterprises (**142%**), POSCO (**99%**), Portfolio Recovery Associates (**104%**), Alexander & Baldwin (**198%**), and Encana (**167%**), among many others. Dan's track record is the reason *Extreme Value* counts over 20 major financial firms and well-known fund managers as subscribers.

As *Extreme Value* subscriber Hank Dickson in Kansas told us, “**About \$20,000 ahead in just 60 days! Needless to say, these returns have sure beat the recent ‘market’ by a country mile. Extreme Value delivers what it promises.**”

As a result of his work in *Extreme Value*, Dan has been featured several times in *Barron's*, the *Value Investing Letter*, and numerous financial TV and radio programs around the country.

EDITOR
MATT BADIALI

ABOUT:

Matt Badiali is the editor of the *Stansberry Resource Report*, a monthly advisory focused on investments in energy, metals, and other natural resources. **Over the years, Matt has recorded an incredible list of triple-digit winners, like Northern Dynasty Minerals (322%), Silver Wheaton (345%), and Jinshan Gold Mines (339%), among many others.**

Matt joined Stansberry Research in 2005, and takes a “boots on the ground” approach to his research. His work has taken him to Papua New Guinea, Vancouver, Hong Kong, Texas, the Canadian Yukon, Haiti, Turkey, Nevada, Iraq, Switzerland, and many other locations. He has built a huge Rolodex of the most important people in the industry – like private financiers, leading geologists and natural-resource analysts, and billionaire hedge-fund managers.

Matt’s work for some of Stansberry’s highest-paying subscribers led to incredible gains as well, including ATAC Resources **(598%)**, and Rainy River Resources **(183%)**.

Matt has a B.S. in Earth Sciences from Penn State University, and a Masters in Geology from Florida Atlantic University. He learned investment analysis from senior analysts Porter Stansberry, Steve Sjuggerud, and Dan Ferris.

- Editor of *Stansberry Resource Report*, a monthly investment advisory which focuses on natural resource and energy investments.

ABOUT:

- Editor of the *Stansberry Digest*.
- President of The Atlas 400, an exclusive social club independent of Stansberry Research.

EDITOR SEAN GOLDSMITH

Sean Goldsmith is the editor of the *Stansberry Digest* – a special, subscribers-only e-letter delivered each weekday after the markets close. Readers have told us it’s their “***favorite financial news source***” and the “***one thing they must read every day.***”

Sean joined Stansberry Research in 2006.

In addition to his editorial work, Sean helped Stansberry Research founder Porter Stansberry launch The Atlas 400, an exclusive, private social club independent of Stansberry Research. Sean and Porter created the club to bring intelligent, successful, like-minded people together to exchange ideas, travel the world, and make friends among equals. As the group’s president, Sean hosted business leaders on an African safari, at Oktoberfest in Munich, and sat front row at the Super Bowl.

EDITOR IN CHIEF BRIAN HUNT

ABOUT:

Brian Hunt is the Editor in Chief of Stansberry Research.

Since 2007, he has managed dozens of Stansberry Research investment newsletters and trading advisories, helping make Stansberry Research one of the largest financial publishers in the world.

Brian is a successful private trader and frequently contributes to *Growth Stock Wire*, *DailyWealth*, and the *Stansberry Research Digest*. He is the editor of *DailyWealth Trader*, one of the world's most popular and most highly regarded trading advisories.

Brian is the co-author of the book *High Income Retirement: How to Generate 12%-20% Yields on Your Savings*. He also produced the book *The World's Greatest Investment Ideas: 31 Secrets and Strategies That Will Make You a World-Class Investor*. (Visit our online bookstore to learn more: <http://stansberryresearch.com/bookstore/>.)

- Editor in Chief Stansberry Research
- Editor of *DailyWealth Trader*.
- Books featuring Brian Hunt:
 - The Stansberry Research Starter's Guide for New Investors
 - Secrets of the Natural Resource Market
 - High Income Retirement
 - The World's Greatest Investment Ideas

ABOUT:

- Editor of the *Stansberry Venture*, a monthly advisory that takes a “venture capitalist”-approach to investing in the stock market.

EDITOR DAVE LASHMET

Dave Lashmet is editor of *Stansberry Venture*, an advisory service that takes a “venture capitalist”-approach to investing... seeking out small-cap speculative stocks with outstanding breakout growth potential.

Dave undertakes an intensive research process to discover under-the-radar technology and medical companies with stunning catalysts for near-term growth. The stocks recommended in the *Stansberry Venture* portfolio have the potential to double and triple in price.

Dave was one of the first employees at Stansberry Research, back in the early days of our business. His unique insight into new technologies is responsible for some of the biggest gains in the history of our firm... including one of our top 10 “Hall of Fame” recommendations, ID Biomedical (331% gains).

Dave has spent 10 years teaching and writing about medicine and technology at major research universities, and he’s done follow-up research at some of the most important facilities in North America: Harvard Medical School, Johns Hopkins, MIT, and the Canadian Centers for Disease Control, just to name a few. He is also an inventor on three issued U.S. patents (in high-tech hardware and software), and a co-inventor of three more patent applications currently under review by the U.S. Patent and Trademark Office.

He has recently returned to Stansberry Research after a stint at a consumer electronics company. His work there took him around the world as he managed a team of tech experts in presentations in Germany, Taiwan, China, Canada, New York, LA, and even a briefing before a U.S. Congressional delegation.

Stansberry's INVESTMENT ADVISORY

by Porter Stansberry

Since 1999, *Stansberry's Investment Advisory's* founder Porter Stansberry has been doing some of the most important work in the financial-advisory business.

Porter launched his letter at the start of the dot-com technology boom. Through the Internet boom and bust... September 11, 2001... the real estate boom... the China boom... the credit crisis... and now the "End of America," Porter has helped his readers see substantial gains, year after year... thanks to his conservative investment formula and his often controversial views on the financial world.

No matter what's going on in the world, *Stansberry's Investment Advisory* will show you how to take advantage.

Here's a small sample of many winning recommendations over the past 10 years...

- JDS Uniphase, 592%
- Celgene, 233%
- ID Biomedical, 215%
- Broadcom, 199%
- Gold Miners ETF, 91%
- Anheuser-Busch, 74%
- Fannie Mae (short sale), 64%
- Freddie Mac (short sale), 60%

Porter and the *Stansberry's Investment Advisory* research team will show you how to make outstanding gains... no matter what's going on in Washington or on Wall Street.

1-year subscription: \$149

- **When is the service published?**

Monthly (first Friday of every month)

- **How much capital should I have to get started?**

Great for beginning investors

- **What will we be buying?**

Stocks

- **Do you put on short trades?**

Mostly long, but we do offer short recommendations

- **What's a typical holding period?**

At least a year and often longer

1-year subscription: \$200

- **When is the service published?**

Monthly (third Tuesday of every month)

- **How much capital should I have to get started?**

No minimum. But you must be open to buying stocks on foreign exchanges.

- **What will we be buying?**

Stocks

- **Do you put on short trades?**

No

- **What's a typical holding period?**

One to three years

Stansberry INTERNATIONAL

by Porter Stansberry & Brett Aitken

Stansberry International is designed to help subscribers capitalize on the ever-increasing investment opportunities available outside the U.S.

In short, we're focusing on the best businesses in the world, which have become extraordinarily cheap... and offer the potential for safely making hundreds of percent gains.

To find these opportunities, co-editors Porter Stansberry and Brett Aitken travel the world, visiting the most beaten-down markets, (where investors have given up all hope)... and identifying the highest-quality businesses in those markets... opportunities that can realistically make you a fortune within a year.

Many U.S. investors focus exclusively on the New York exchanges. Those folks can wait years to find a true fire-sale situation. But when you broaden your investing horizon... you can almost always find some market in the world suffering an economic or political crisis.

By looking overseas, you can regularly get the opportunity to buy great, blue-chip companies at close to penny-stock prices.

This happens because every few years, investors get spooked about a particular region, for one reason or another, and prices drop on some of the best businesses in the world, as if they're "on sale," at prices you likely won't see again for decades.

This is our focus.

And these opportunities can provide a safe and reliable way to make gains of 500% or more... if you are patient... and if you buy at the right time.

Stansberry VENTURE

by Dave Lashmet

Stansberry Venture is a monthly research advisory that takes a venture-capital approach to investing.

Editor Dave Lashmet looks for investments similar to the type available to the largest venture-capital firms, which make billions of dollars in profits by funding companies like Facebook and Twitter in their infancy.

Except in *Stansberry Venture*, Dave hones in on small, public companies that are producing the next wonder drug or technology. If you can get in early, you can make a lot of money.

Dave has spent the last 20 years working as an independent technology analyst, which makes him the perfect man to head up this effort. He is also one of the first employees Porter hired after launching Stansberry Research in August 1999.

From 1999 to 2006, David covered some of the most important technological innovations in history. Notably, his ID Biomedical recommendation returned 322% for subscribers... It's still one of the 10 best-returning positions ever recommended in our company's history.

He also did extensive early-stage research into groundbreaking tech (and medical tech) firms, including Intuitive Surgical, Autonomy (bought by HP), and Illumina. If you look up these stocks, you'll see that they eventually went up hundreds of percent, and in some cases thousands, after he wrote about them.

In *Stansberry Venture*, Dave is searching for the smallest and most promising firms out there... The goal is for subscribers to make five or 10 times their money on these speculations.

True WEALTH

by Dr. Steve Sjuggerud

Dr. Steve Sjuggerud's *True Wealth* is one of the world's most trusted financial newsletters. The investment philosophy of *True Wealth* is simple: Buy assets of great value when no one else wants them... and sell when others will pay any price.

Dr. Sjuggerud scours the globe looking for investment ideas that are cheap, ignored by the average investor, and beginning an uptrend.

In the past, Dr. Sjuggerud has found unusual opportunities you simply won't hear about anywhere else – including timber, gold coins, and government “tax certificates.” If you get in early, these investments have the potential to make excellent gains – with extremely low risk.

Dr. Sjuggerud has worked as a stockbroker, a vice president of a \$50 million mutual fund, a hedge-fund manager, and an analyst for a nearly \$1 billion hedge fund. He holds a doctorate in finance (his dissertation covered emerging-market currencies), and has been quoted by the *Wall Street Journal*, *Barron's*, and the *Washington Post*, among many others.

Each month in *True Wealth*, Dr. Sjuggerud will bring you safe, profitable alternative investment ideas that are perfect for retirees and those about to retire.

Retirement **MILLIONAIRE**

by Dr. David Eifrig, Jr.

Retirement Millionaire will show you how to live a millionaire retirement lifestyle... without a lot of money.

Editor Dr. David Eifrig Jr. started his career in arbitrage and trading with Goldman Sachs. In 1995, he retired, went to medical school, and became an ophthalmologist. Now, in his latest “retirement,” he’s joined Stansberry Research to share his retirement secrets full-time.

Along with the safest investment and income ideas, every month in *Retirement Millionaire*, Dr. Eifrig will show you retirement secrets like...

- Why using an “alternative energy” source could pay you \$2,500 every month
- How to get a 100% free cruise
- The secret of traveling the country in a nearly free RV
- How to get a free California wine vacation
- How to get free prescription drugs
- How to get 40% off dinners
- How to get free golf
- How to find out if a document sitting in your desk drawer could be worth \$250,000

The fact is, if you’re not using Dr. Eifrig’s retirement secrets, you are missing out on some amazing opportunities to live a wealthier, healthier retirement.

Income **INTELLIGENCE**

by Dr. David Eifrig, Jr.

Income Intelligence is written by Dr. David Eifrig, a former Wall Street trader who worked for a decade at three of the world's wealthiest banks: Goldman Sachs, Chase Manhattan, and Japanese investment bank Yamaichi.

After years on Wall Street, Dr. Eifrig used his savings to fund his first "semi-retirement," using his experience and financial acumen to seek out ways to generate safe income from savings.

The lessons learned over those decades have helped to form *Income Intelligence*, a full-service approach to income investing that covers stocks, bonds, and alternative investments.

Dr. Eifrig determines what assets to buy and when, as well as institutional-quality research on the single best opportunity in each and every income market. With these techniques, the outcome is remarkably safe investments with near-double-digit yields.

Income Intelligence is designed for investors of every level, with simple explanations and investments that are easy to make in any brokerage account.

Once a month in *Income Intelligence*, you'll have the opportunity to earn high yields on safe investments and understand all the financial forces affecting your income.

The Stansberry RESOURCE REPORT

by Matt Badiali

The *Stansberry Resource Report*, written by expert geologist Matt Badiali, is a monthly investment advisory that focuses on the best natural resource investments today. Matt has more than 15 years of experience as a hydrologist, geologist, and a consultant to the oil industry, with a master's degree in geology from Florida Atlantic University.

Each month, Matt uses his considerable expertise and industry connections to recommend the most promising energy and mineral explorers, drilling service providers, power companies, and oil and mining companies in the world.

He has spent the last several years traveling the world for Stansberry Research, digging up the best resource investments for our readers. This research has paid off for Matt's *Stansberry Resource Report* subscribers in a big way. In recent years, readers saw gains of **335%** in Silver Wheaton... **322%** in Northern Dynasty Minerals... **269%** on Silvercorp Metals... and **184%** on ConocoPhillips, to name just a few.

Extreme VALUE

by Dan Ferris

Extreme Value analyst Dan Ferris' strategy of buying safe, cheap stocks – only when the price is right – has earned him one of the most impressive track records in the industry. In fact, many well-known money managers follow Dan's recommendations. His work has even been covered extensively in *Barron's*.

Why does Dan have such a great track record? Because he spends hundreds of hours each month poring over balance sheets and SEC filings to find stocks trading at huge discounts to their true worth – giving his readers a large margin of safety.

Not only are *Extreme Value* stocks safe, they are also one of the most profitable ways to invest. In a 27-year study by two University of Chicago professors (one of whom was nominated for a Nobel Prize), the *Extreme Value* strategy proved to trounce the overall market.

Since *Extreme Value* launched in 2002, Dan's readers have had the opportunity to make incredible gains in super-safe stocks, including **198%** in Alexander & Baldwin... **248%** on International Royalty... **117%** on Encana... **104%** on Portfolio Recovery Associates... and **142%** on Icahn Enterprises.

Extreme Value uses classic value-investing philosophy to help you make some of the biggest, safest gains you'll ever find in the stock market.

Global CONTRARIAN

by Kim Iskyan

The *Global Contrarian* is a “go anywhere there is opportunity” publication. Kim Iskyan’s goal is to provide readers with a wealth of “boots on the ground” investment insight from dozens of countries all over the world... performed with a deeply contrarian focus.

In other words, you’re not going to find the latest hot growth stock in the pages of “the *Contrarian*.” What you will find is an incredible amount of due diligence on deeply out-of-favor assets... located in the most out-of-favor parts of the world.

In the *Contrarian*, Kim looks for classic “bad to less bad” investment situations... where investors can step in amidst black pessimism and buy assets for pennies on the dollar.

Although neophyte investors are distrustful of this approach, sophisticated, professional investors flock to “bad to less bad” situations. They flock towards pessimism and bear markets. They flock to areas where people are willing to sell at any price. They flock towards situations where “things can’t get any worse.”

After all, when things can’t get any worse, they can only get better... and every dollar invested can easily turn into \$5... even \$10.

Before joining Stansberry Research in 2013, Kim spent more than 20 years as a finance professional in emerging and frontier markets. In other words, when you read the *Contrarian*, you’re reading a guy who has spent the bulk of his professional life analyzing global investments. And Kim’s natural contrarian streak made him a perfect fit for Stansberry Research.

1-year subscription: \$1,000

- **When is the service published?**

Monthly (fourth Monday of every month)

- **How much capital should I have to get started?**

No minimum. But you must be open to buying stocks on foreign exchanges.

- **What will we be buying?**

Stocks

- **Do you put on short trades?**

No

- **What’s a typical holding period?**

Six to 18 months

Stansberry ALPHA

by Porter Stansberry & Brett Aitken

Written by Stansberry Research founder Porter Stansberry and analyst Brett Aitken, *Stansberry Alpha* is designed to exploit a critical anomaly in the options market.

Thanks to this anomaly, you could potentially generate double- and triple-digit gains on many of the safest, most conservative stocks in the market.

That's the goal with *Alpha* – to show subscribers how to take the same research and stock analysis Porter uses in *Stansberry's Investment Advisory* and use options to turbocharge the gains.

In finance, “alpha” measures how much better an investment performs compared with vehicles of a similar risk profile. That's why we've named this service *Stansberry Alpha*. These types of trades carry less risk than a simple stock purchase – but the potential gains can be far bigger.

In *Stansberry Alpha*, Porter and Brett show how you can use one simple trading technique to make bigger gains than you would by simply holding stock, but with less risk.

- **What's a typical holding period?**

Two weeks to 12 months

DailyWealth TRADER

by Brian Hunt

Our goal with *DailyWealth Trader* is to provide you with the world's best short-term trading ideas, every single day the market is open.

Editor Brian Hunt finds the market's best trades from the analysts at Stansberry Research, like Jeff Clark, Dr. David Eifrig, and Porter Stansberry... from the market's greatest money managers... and from our extensive network of contacts and industry "insiders."

You'll find all sorts of unique yet simple-to-use strategies in *DailyWealth Trader*.

For example, you might learn how to use a safe options strategy on a recommendation from one of the world's best analysts to generate an income stream of 15%-30% a year... or how to use investor sentiment as a tool to time and trade market "extremes"... or which "boom and bust" sector - like commodities, biotech, or emerging markets - is offering the best setup right now.

Best of all, Brian will show you step-by-step how to execute each trade... how much money is required to place the trade... how long you should expect to stay in the trade... and how much you can expect to make.

If you've ever wanted to learn how to trade, but haven't yet, this is exactly the service for you. Readers rave about the huge online educational archive, with an investment and trading education worth thousands of dollars. *DailyWealth Trader* readers get access to it for free.

Stansberry SHORT REPORT

by Jeff Clark

Before joining Stansberry Research as editor of the *Stansberry Short Report*, Jeff Clark spent 20 years as a professional trader for his own independent brokerage house in San Francisco. His client list was small and exclusive – fewer than 100 of California’s wealthiest individuals. In 2004, Jeff retired wealthy from professional money management. But he wanted to continue his trading research. Stansberry Research agreed to publish his best ideas exclusively – one of the smartest moves we’ve ever made.

Jeff is the *only* trader we know who consistently makes money buying and selling options. The gains he has made for his *Stansberry Short Report* subscribers over the years – no matter what the market is doing – have been simply incredible.

If you become a subscriber to the *Stansberry Short Report*, you’ll receive an e-mail alert every Tuesday morning, directly from Jeff. You’ll also have access to Jeff’s daily blog. We call it the *Direct Line* because it gives Jeff direct access to his readers at any minute of the day. Jeff posts market commentary on the *Direct Line* almost every day the market is open, so you’ll be the first to know what he’s thinking.

In Jeff’s weekly *Stansberry Short Report* recommendation, he’ll give you the full details on exactly what option to buy or sell... and when to pull the trigger. You’ll receive e-mail updates as necessary. And Jeff will let you know exactly when to lock in your gains... when to add to your position... and when to exit.

The fact is, just hitting on a couple of Jeff’s trades can make your portfolio for the entire year.

1-year subscription: \$4,000

- **When is the service published?**

Weekly (every Tuesday)

- **How much capital should I have to get started?**

\$25,000

- **What will we be trading?**

Stocks and options

- **Do you put on short trades?**

Mostly long, some short

- **What’s a typical holding period?**

About a month

1-year subscription: \$4,000

- **When is the service published?**

Twice monthly (second and fourth Friday of every month)

- **How much capital should I have to get started?**

\$20,000

- **What will we be trading?**

Stocks with options

- **Do you put on short trades?**

No

- **What's a typical holding period?**

Two to three months

Retirement **TRADER**

by Dr. David Eifrig, Jr.

Retirement Trader is a twice-monthly trading advisory where Dr. David Eifrig shows you how to make money safely in the stock market.

Before he came to Stansberry Research, Dr. Eifrig was part of an elite team of traders at Goldman Sachs where he created sophisticated investment vehicles for private clients and other traders at the firm.

In *Retirement Trader*, Dr. Eifrig takes what he did for Goldman Sachs, and in plain English, shows readers unusual ways to make large, safe gains in the stock and options markets... whenever and wherever these opportunities arise.

The strategies Dr. Eifrig uses in *Retirement Trader* are so safe, he went more than three years without closing a single losing position in the services model portfolio.

If you're the type of investor who knows super-safe trading opportunities only come from waiting patiently for what billionaire investor Warren Buffett calls the "fat pitch," this is the service for you. *Retirement Trader* is your opportunity to learn about the timeless techniques of investing with less risk.

Once you see how simple it is, you'll never look at stocks and options the same way again.

True Wealth SYSTEMS

by Dr. Steve Sjuggerud

The goal of *True Wealth Systems* is to find ways to profit from extreme market anomalies. This service, created by Dr. Steve Sjuggerud with the help of actuarial scientist Brett Eversole, gives you access to a top collection of high-probability, high-profit trading systems.

Before launching *True Wealth Systems*, Steve was a stockbroker, author, and vice president of trading at a \$50 million global mutual fund. He has a doctorate in finance and speaks at investment conferences around the country every year.

In short, readers will benefit from the kind of research only the biggest hedge funds have access to. Steve and his team spent hundreds of thousands of dollars and years of man-hours building own custom analysis software. And they've been crafting safe, successful trading systems using these incredible tools.

These strategies take advantage of investments from every corner of the market – commodities, currencies, stocks – so you will always be able to make money somewhere. Tested over decades, they have proven to return as much as 60% annualized when “in the trade” – and without taking big risks.

1-year subscription: \$3,500

- **When is the service published?**

Monthly (first Thursday of every month)

- **How much capital should I have to get started?**

\$2,500

- **What will we be buying?**

ETFs (exchange-traded funds)

- **Do you put on short trades?**

No

- **What's a typical holding period?**

Six to 18 months

1-year subscription: \$3,000

- **When is the service published?**

Monthly (fourth Thursday of every month)
with e-mail updates as needed

- **How much capital should I have to get started?**

Minimum of \$25,000 in a margin account

- **What will we be trading?**

Options

- **Do you put on short trades?**

Yes

- **What's a typical holding period?**

Six months

Stansberry **PRO TRADER**

by Jeff Clark

Stansberry Pro Trader is the most sophisticated trading research service Stansberry Research has ever produced.

In short, the most powerful thing about Jeff's *Stansberry Pro Trader* strategy is that it can allow you to make money no matter what a stock does – whether it goes up, down, or just stays the same.

The unique strategy behind this service – a companion subscription to the *Stansberry Short Report* – is the way editor Jeff Clark trades his own money, almost every day the markets are open.

It's a sophisticated options secret, used by the best institutional traders in the world. It's not about taking huge risks for big returns. Rather, it's for traders who want to control their risk and increase their probability of success.

Stansberry Pro Trader is not for everyone. But if you're interested to learn what the richest and most successful traders in the world do with their money, and you have at least \$25,000 in a margin account, this is the trading service for you.

E-LETTERS

**STANSBERRY
DIGEST**

**DAILYWEALTH
PREMIUM**

Stansberry DIGEST

by Sean Goldsmith & Porter Stansberry

Every weekday in the *Stansberry Digest*, Porter Stansberry and Sean Goldsmith file a daily report on the most interesting situations taking shape in the markets and how our top analysts are reacting to them.

For example, you might read about how one analyst traveled to visit the best real-estate buy in America... or the details on what Stansberry Research's top medical expert discovered at a recent conference on heart disease... or the story of how one analyst traveled way off the beaten path in search of gold in Haiti.

The *Digest* is also where Porter and Sean answer your questions and feedback. The Stansberry Research analysts read every letter you send and reply to many of the most common (or provocative) questions in the *Digest*.

The *Digest* will keep you up to date on what's going on with the rest of the Stansberry Research family: the inner workings of our business... what we got right... what we got wrong... where we're traveling next... and much more.

1-month subscription: Free to all Stansberry Research subscribers

- **When is the service published?**

Daily. On weekdays, after the market close.

- **How much capital should I have to get started?**

Great for beginning investors

- **What will we be buying?**

Mostly stocks, but may address an array of investing tools and strategies

- **Do you put on short trades?**

Occasionally

- **What's a typical holding period?**

A few months to a few years

1-month subscription: \$9

- **When is the service published?**

Daily. On weekdays, before the market opens.

- **How much capital should I have to get started?**

Great for beginning investors

- **What will we be buying?**

Stocks and ETFs

- **Do you put on short trades?**

Maybe

- **What's a typical holding period?**

A few months to a few years

DailyWealth PREMIUM

by Dr. Steve Sjuggerud

The investment philosophy with *DailyWealth Premium* is this: Buy things of extraordinary value at a time when nobody else wants them. Then sell when people are willing to pay any price.

You see, the editors of *DailyWealth Premium* believe most investors take way too much risk. So their mission is to show you how to avoid risky investments, and how to avoid what the average investor is doing.

To accomplish this, lead editor Dr. Steve Sjuggerud uses his access and connections in the financial industry to give you all the best professional investment research and recommendations in the world (some of which retail for as much as \$5,000 per year)... at a tiny fraction of the regular price.

That's the idea behind *DailyWealth Premium*. Steve cherry-picks some of the best investment ideas in the industry, and he sends them to you each morning... before the markets open.

Even better, you'll get the name, ticker symbol, and the "quick capsule" thesis behind each recommendation.

Dr. Steve Sjuggerud and the editors of *DailyWealth Premium* believe you can make a lot of money – safely – by simply doing the opposite of what is most popular... and by following what the smartest investors in the world are doing with their money.

RADIO

**STANSBERRY
RADIO
PREMIUM**

Stansberry RADIO PREMIUM

Stansberry Radio Premium is the subscribers-only edition of Porter Stansberry's free weekly financial podcast.

Each week, Porter Stansberry and Aaron Brabham invite Stansberry Research editors and other top investment professionals to discuss their favorite investing ideas. Premium guests have included Asian investment expert Peter Churchouse, *Retirement Trader* editor Dr. David Eifrig, and *Extreme Value* editor Dan Ferris.

As a paid-up subscriber to any Stansberry Research publication, you will receive the "regular" Stansberry Radio at no charge every week.

As a *Premium* member, however, you get all the benefits of the regular show, plus much more... including a special, twice-monthly, 15-minute podcast where Porter and Aaron share their favorite ideas and recommendations from across Stansberry Research's newsletters. You'll also get to hear the ideas and opinions of some of the greatest minds in politics, economics, and the investment world today...

1-month subscription: \$10

- **When does the show air?**

Members-only podcast: Twice per month

Mastermind Group: Once per month

Advisory Roundtable: Once per month

Black Label Show: Once per month

- **Where can I find past episodes?**

On our website, www.stansberryradio.com

- **Do the episodes have transcripts?**

Available on our website two to three days after every show
